

We have different levels of the Dental Rewards Program based on how much dental care is recommended and provided for your pet. Brushing your pet's teeth everyday may not be possible, but what about a weekly topical application to your pet's teeth? Or maybe chew toys, dental chews and a well-rounded dental diet might work best for you and your pet. Our Dental Rewards Program benefits everyone, especially your pet!

Our family...caring for yours

## EBAH Dental Rewards

Why are **regular dental cleanings** important for my pet?

Untreated plaque and tartar contribute to bad breath, gingivitis, periodontal disease, and tooth loss. Chronic bacterial infection in the mouth is destructive to the gums, teeth and bone. Bacteria can spread throughout the entire body via the bloodstream and may damage the kidneys, liver and heart.

Maintaining excellent oral health for our pets is a major component of maintaining their overall physical health. Elliott Bay Animal Hospital recognizes that there is significant expense to clients associated with providing top quality dental prophylaxis. We want to take an active role in improving the oral health of our patients and offering a dental reward program is one way we can do that.

### **You and your pet can earn one of the following **rewards**:**

If your pet has a dental cleaning at Elliott Bay Animal Hospital within 14 months of the previous cleaning, there is a \$75 reward.

If your pet has a dental cleaning within the time frame recommended by your veterinarian but over 14 months since the last cleaning, there is a \$50 reward.

If your pet is seeing us for the first time with no previous dental cleaning at our hospital, there is a \$50 reward.

### What is **Oravet**?

A wax-like polymer that adheres to the surface of the teeth and produces an invisible barrier that prevents plaque and tartar from adhering to the teeth. Applied weekly, it is designed to withstand regular brushing, dental diets, and chew toys.

**"I followed my veterinarian's recommendation, scheduled my pet for a dental cleaning and received a dental reward for \$75.00!"**
